THE HNG GROUP

HNG Float Glass Limited

HNG Float Glass Limited was incorporated in 2006 under the flagship of the HNG Group with a capital outlay of 6000 million INR. Located over a sprawling area of 121 acres in Halol (near Baroda), the company manufactures clear as well as bronze and grey tinted glass and has an installed capacity of 600 TPD.

Float glass is a distinctive type of glass that has a huge demand across different sectors. It is used in architectural, as well as structural glazing including automotive glass, shop counters, furniture, atriums, curtain wall, floors, showrooms, staircase, false ceilings and the like. HNG Float Glass Limited is an initiative of the HNG Group to explore these possibilities and thus become a leader in the float glass industry.

HNG Float Glass Limited has joined forces with global partners like M/s Toledo (USA) for basic engineering and design services, procurement management, project services, engineering management and onsite job assistance during the installation, commissioning and start up of the Float Plant. It has also collaborated with CTIEC for detailed design and commissioning of the complete float line on a turnkey basis.

All the essential equipments for the HNG Float plant are sourced from the US and Europe. The annealing Lehr is obtained from CNUD, Belgium; whereas, the cold end is supplied by Bottero, Italy.

Hindusthan National Glass & Industries Limited

Hindusthan National Glass & Industries Limited (HNG) is the largest glass packaging solutions provider in India that has been ranked 312nd among the top 1000 companies by the Business Standard magazine. Making a humble beginning in 1946, it is one of the fastest growing companies in the world with its annual turnover crossing the 1300 Cr mark in FY 2008-2009.

HNG is the largest producer of container glass in India with a total capacity of 2575 TPD, which is the highest in India. It produces bottles of 5ml to 3200 ml capacity with downstream applications in the liquor, beer, beverages, pharmaceuticals, processed food and cosmetic industries. HNG is known for its asset versatility, which gets reflected in its capacity to produce bottles in Amber, Flint and Green color.

HNG has a pan India presence with its manufacturing units spread across Rishra, Bahadurgarh, Sinnar, Neemrana, Puducherry and Rishikesh with an installed capacity of 11 furnaces and 43 production lines. Certified with ISO 9000:2000, the company has an enviable client list that is spread across 23 countries.

Glass Equipment (India) Limited

Glass Equipment (India) Limited (GEIL) is an associate of HNG that was incorporated in 1974. Known for its state of the art manufacturing facility and related engineering products, the company offers a truly diversified spectrum of IS forming machines. GEIL has an outstanding domestic and export performance to its credit with its products including feeders, motor driven presses, screen printing machines, gob accelerators, ware transfers, annealing, decorating lehrs and so on.

Not just equipments, the company provides expertise in the entire process of glass manufacturing. GEIL undertakes projects for setting up glass container plants, from design to final commissioning. It also provides assistance in machine conversion and retrofitting. Maintenance and overhaul of glass forming machines and training back-up and support are some of the other services offered by the company on a turnkey basis.

International quality standards are rigorously embedded into the production process of GEIL by a number of minute and critical quality control checks. The company is certified by Det Norske Veritas for ISO 9001:2000 Compliance and strives to provide world class products to its clients.
